

PEARL CLEANING GUIDE

FOLLOW THE CLEANING GUIDELINES CAREFULLY.

General Cleaning

- ✓ Use a soft microfiber cloth with soapy water or a mild household cleaning agent/dish soap.
- ✓ Lightly dampen the cloth.
- ✓ Gently wipe the surface, clean and dry immediately with a clean, dry cloth to prevent moisture streaking.

Avoid

- ✗ No paper towels – they can leave lint or cause micro scratches.
- ✗ No abrasive cleaners – they can damage the surface.
- ✗ No bleach/chlorinated products, or acids – these can cause discolouration.
- ✗ No steam cleaners or high-pressure cleaners – excessive moisture and heat can damage the material.
- ✗ Do NOT apply cleaning products directly to the surface.

Stain Removal

- ⚡ Act quickly! Remove dirt or spills as soon as possible to prevent stains – don't let them dry!
- ⚡ For stubborn stains, test the cleaning agent on a small, invisible area first.
- 🌀 Use a gentle, circular motion when cleaning – avoid excessive scrubbing

BY FOLLOWING THESE STEPS,
YOUR PEARL SURFACE WILL
REMAIN PRISTINE FOR YEARS TO
COME.

**IMPORTANT: Failure to
follow the cleaning instructions
may void your warranty.**
